

Training Announcement - Open to All First Responders!

Critical Incident Casualty Management

This MCOLES approved multi-media based training program focuses on enhancing the likelihood of both survival and domination in the unfortunate occurrence of violent encounters. Based on the military's combat proven Tactical Combat Casualty Care (TCCC) and the civilian translation of TCCC, Tactical Emergency Casualty Care, this is highly valuable training for all first responders and command staff.

Participants will learn methods on how to react if you, your partner or a teammate is injured as well as be instructed to recognize and treat most common causes of potentially preventable death in the tactical environment. There will be an emphasis on self-aid and buddy-aid so officers can manage injuries to themselves and their partners. The program prioritizes life saving medical care with tactical considerations to encourage officers to remain engaged, end the threat, and minimize further injury and loss of life.

Monday, November 6, 2017 from 8:30am to 12:30pm or

Monday, December 4, 2017 from 8:30am to 12:30pm

Washtenaw Community College

4800 E. Huron River Dr., Ann Arbor, MI 48105 • Morris Lawrence building, room 111

Cost: \$75 • Seating is limited to 32 per class
